

M95 LMS Period II CORRIDOR BRAKE FIRST

D1717

Introduced 1929, last withdrawn 1962

57'

These etched sides can be built into a complete coach using products from our range as supplied in our full kits. Please refer to the panel opposite. Should you prefer they can also be used for scratchbuilding.

This diagram was the first of the period II designs and 5 were built. One suffered a distressingly common fate of LMS brake firsts (often marshalled at the end of a train), being written off in the 1931 Leighton Buzzard crash. A flush sided replacement was built in 1932.

Sample formations

Lancastrian 1934	BTK/TO/TO/RK/FO/CK/CK/BTK/ BFK /RC/TO/TK/TO		
The Comet 1934 (Down)	BTK/TK/RTO/RF/CK/ BFK /BTK/CK/CO/RTO/RK/RFO/ BFK /BCK	Manchester	Liverpool
Yorkshireman 1938	BTK/CK/TO/RK/FO/ BFK		

Running numbers

5005-5009 built 1929 Derby

Livery

The LMS coach body colour was maroon. Ends were also maroon with the detail picked out in black, but from the end of 1936 they were painted all over black. Fully panelled livery was applied with lining in black and gold leaf, later yellow. On flush sided coaches the lining was laid out as though the coach was panelled (so called 'psuedo-panelling') sometimes the verticals were at the edges of the window frames, otherwise they were on the centre of the panel between them. Simple lining was adopted at the beginning of 1934. In 1946 the yellow was replaced with a much lighter shade referred to as 'straw'. From 1949 coaches received BR crimson and cream. From 1956/7 BR maroon with simple lining was adopted.

Number and lettering styles, insignia and class designation placement did not always follow the changes of livery. For further information on a particular vehicle at a specific date please consult references and photographs.

Early coaches received lead grey roofs with black between the cantrail and rainstrip. All steel and later flush sided coaches had a metallic aluminium paint finish. However, in service the roof quickly took on an overall muddy grey colour.

Underframes and bogies were finished in black

Further information

LMS Coaches	Jenkinson & Essery	O.P.C.
Historic Carriage Drawings	Jenkinson & Campling	Ian Allan
Passenger Train Formations 1923-1983 LMS LM Region	Clive S Carter	Ian Allan

COMET MODELS coach components required to complete this coach are as follows

Underframe	UM2	Bogies	BM2
Underframe castings	UCM1	Roof castings	RC1
Ends	EM1	End castings	ECM1
Roof	C10	Interior	INT2
Duckets	C15		

The ends are identical except that the train alarm gear is only fitted at the end shown on the roof plan overleaf
