

## W31 GWR Hawksworth CORRIDOR THIRD

**C82/84**

**Introduced 1948, last withdrawn mid 60s**

**64'**

These etched sides can be built into a complete coach using products from our range as supplied in our full kits. Please refer to the panel opposite. Should you prefer they can also be used for scratchbuilding.

The Hawksworth coach designs spanned the period between the war years and nationalisation. Several designs, including this one, continued to be built into BR days.

The style was distinctive and although appearing massive they were handsome coaches. The fundamental changes were in the roof profile, which was rounded down at the ends (dome-ended), the reversion to a bow-ended design and an increase in length to 64'. The coaches were slab sided with very little tumblehome. They had end vestibules and a mix of window sizes with 4' for 3rd class and 5' for 1st class. Sliding vents were provided in some corridor windows.

Most were introduced piecemeal as and when demands were made, although the Birkenhead-Bournemouth, London-Birmingham and London-South Wales workings were provided with sets in 1950, and the Bristolian was a Hawksworth formation in 1954. However, they could also be seen in branch line workings.

### Livery

Those coaches built before BR had chosen a livery in 1949 were given the final GWR chocolate and cream livery. The cream panel extended from 7" below the cantrail down to 1½" below the windows. Double lining was applied, the lower waist line being 7" below the upper one. Lining was black and gold, and numbers were in the lining panel at both ends. Roofs were painted grey. The monogram was replaced with the new Coat of Arms in the centre of the panel flanked by the words 'Great' and 'Western'.

From 1949 they received BR livery of carmine and cream with gold and black lining. The cream panel was the full height of the windows plus an inch top and bottom. The black line was against the cream. From 1956 they were painted maroon lined gold/black/gold at the waist and black/gold above the windows.
